

# Motivational Leadership Presentations

*"If you do what you always did, you will get what you always got." -Anonymous*

**Attitude, Adaptability and Time Management** are among key topics to master in order to motivate yourself and others.

**Change is difficult.** Adapting to a new behavior is uncomfortable. You have to motivate yourself for better personal leadership and others for spirited group leadership.

Finding Resolution Consulting will help you and your team master these topics for stronger leadership.

Motivational leadership:

- builds skills and creates stronger leaders and teams;
- improves communication; and-
- provides a foundation for managerial strength

## The Power of Attitude

**The Power of Attitude** - Your attitude is the foundation for your success in any area. What you do is influenced by how you think, and your thoughts reflect your attitude.

As Winston Churchill said, "Attitude is a little thing that makes a big difference". Successful people don't have any fewer problems than unsuccessful people they just have a different mindset in dealing with them.

This presentation will lay out the steps to create a positive attitude.

## Emotional Intelligence

**What is Emotional Intelligence and Do You Have It?** - Emotional Intelligence is critical to your success. However, knowing what it is and knowing how to use it are very different.

EQ is the foundation for many skills. Effort spent on increasing your EQ can have a very positive impact on many aspects of your life. This presentation will put you on the path to higher EQ leadership.

## Adapting to Change

**Do You Adapt To Cope Or To Win?** - Change is difficult. It is a process where things can get worse before they get better. It takes courage to embrace change and see what will be gained – not what will be lost.

We all possess the capacity to change and control our future. Starting that process means greater self-awareness and taking on small acts of courage. This presentation will show you how you can create the change you want.

## Time Management

**What Do You Do With Your 24 Hours?** - Time is democratic. We all have 24 hours in a day. How we manage those 24 hours has a profound effect on professionalism and our personal life.

Goals are an important element of time management. Without goals, there is no reason for time management. Yet, very few know how to write and achieve goals.

This presentation will provide tips and tools for better time management and goal achievement.
